Permit # A2010-05-0129
Owner: Janice Kakazu
Location: 1230 Kapalama Avenue
Tax Map Key: (1) 1-6-023:007

J. Kakazu wishes to demolish a house located at 1230 Kapalama Avenue. The area of potential effect would be the lot and, during work, the street immediately adjacent.

Municipal online records show the house constructed in 1953. It is eligible for the Hawaii Register of Historic Places under Criteria C, Architecture, as representative of single wall, single family, post World War II housing design in Hawaii.

The project will have effect, with agreed upon mitigation. Mitigation includes photographs, a sketch map of the house interior, and a completed historic resources inventory. Mitigation is now complete.

Any questions should be sent to Ross W. Stephenson, SHPD Historian, at (808) 692-8028 or ross.w.stephenson@hawaii.gov.

Mahalo for the opportunity to comment.

Permit # (None)
Owner: Jeffrey Morelock
Location: 55-145 Naupaka St
Tax Map Key: (1) 5-5-011:033

This letter is in response to your communication of May 11, 2010, received by our office on May 12, re property located at 55-145 Naupaka Street in Laie. You had asked whether any historic clearance was necessary for federally funded activities on the lot.

The policy of this office is to use the City and County of Honolulu's online databases for identifying historic resources. A search of such municipal databases shows that the present structure on the subject property was indeed constructed in 2000. An examination of the City's Parcel Map shows parcel (1) 5-5-011:077 (apparently originally part of the same lot) as having a structure on it built in 1961. As even the latter property's building has not reached 50 years of age, we must conclude that there has been some error in the database.

Thus we concur that there would be no affect to historic property by any federally funded projects occurring at 55-145 Naupaka Street.

Any questions should be sent to Ross W. Stephenson, SHPD Historian, at (808) 692-8028 or ross.w.stephenson@hawaii.gov.

Mahalo for the opportunity to comment.

SUBJECT: Chapter 6E-42 Historic Preservation Review / Remodel Bathroom and Kitchen
Permit # A2010-04-0715
Owner: John Sullivan
Location: 2801 Coconut Avenue, ("The Kainalu") Apartment No. 5G
Tax Map Key: (1) 3-1-033:001-0034

John Sullivan wishes to remodel his bathroom and kitchen. His apartment is part of a concrete high rise building located near Diamond Head. The area of potential effect would be the apartment itself and, during work, the apartment parcel and street immediately adjacent.

Municipal online records show the building was constructed in 1958. The property is eligible for the Hawaii Register of Historic Places under Criteria C, Architecture, as an early example of high rise multiple family housing in Hawaii.

The project would be internal to the single apartment. Based upon the information presented, **this project will not affect historic property.**

Any questions should be sent to Ross W. Stephenson, SHPD Historian, at (808) 692-8028 or ross.w.stephenson@hawaii.gov.

Mahalo for the opportunity to comment.

SUBJECT: **Chapter 6E-42 Historic Preservation Review / Alteration and Additions**
Permit # BT2010-0329
Owner: Stephanie Fraser Dunbar-Co
Location: 9757 Kamehameha V Highway, Molokai
Tax Map Key: (2) 5-7-004:007

Stephanie Fraser Dunbar-Co wishes to undertake multiple changes to her home. Included would be:

- reconfiguration of a bedroom and kitchen to create a new bedroom and bath;
- conversion of the existing garage into a new kitchen, playroom, half bath, and pantry;
- relocate existing laundry;
- add additional space from the exterior to existing bedroom;
- place 3 and a half inch wall around the entire exterior of the home to allow for additional roof load and wall insulation;
- add new countertops, plumbing fixtures, appliances, flooring, and lighting;
- construct new hipped roof; and
- possibly change color and exterior wall textures.

The area of potential effect would be the lot and, during work, the street immediately adjacent.

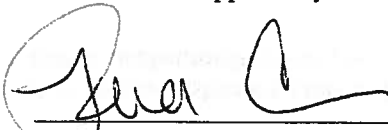

Such changes constitute complete alteration of the existing structure.

According to Maui County online records, the present building was erected in 1957. The building is eligible for the Hawaii Register under Criteria C, Architecture, as an example of post World War II single wall, single family design.

The project will have affect, with agreed upon mitigation. Mitigation consists of an existing floor plan, altered floor plan, and photographs as requested by our office and since provided by the homeowner. Mitigation is complete.

Any questions should be sent to Ross W. Stephenson, SHPD Historian, at (808) 692-8028 or ross.w.stephenson@hawaii.gov.

Mahalo for the opportunity to comment.

Dear Mr. Shiroma:

**SUBJECT: Chapter 6E-8 Historic Preservation Review –
NPDES NOI Form C Discharge of Storm Water Associated construction activities
for the Demolition Buildings – Waimano Training School and Hospital
Pearl City, Ewa, O'ahu, Hawai'i
TMK: (1) 9-7-25: 001**

This project is the construction of proposed construction activates for the demolition of Buildings at Waimano Training School and Hospital.

We determine that **no historic properties will be affected** by this project because:

- ☐ Intensive cultivation has altered the land
- ☐ Residential development/urbanization has altered the land
- ☐ Previous grubbing/grading has altered the land
- ☐ An accepted archaeological inventory survey (AIS) found no historic properties
- ☒ SHPD previously reviewed this project and mitigation has been completed
- ☐ Other

In the event that historic resources, including human skeletal remains, are identified during the construction activities, all work needs to cease in the immediate vicinity of the find, the find needs to be protected from additional disturbance and the State Historic Preservation Division contacted at (808) 692-8015.

Aloha,

Dear Colonel Margotta:

**SUBJECT: National Historic Preservation Act (NHPA) Section 106 Review—
Redevelopment of a portion of Helemano Military Reservation (HMR)
Helemano Ahupua'a, Ewa District, O'ahu, Hawai'i
TMK: (1) 6-4-04: 003**

Thank you for providing the opportunity to review your letter of May 3, 2010 for the proposed reorganization of the layout of buildings at HMR barracks complex and that will also call for new facilities to be constructed in a phased sequence. New parking structure, new headquarters facilities, a hardstand, a dining facility and a tactical vehicle maintenance facility are being planned along with the demolition of building 300. Back in 2006, the Army determined with our concurrence that Building 300 did not meet National Register criteria but the parade ground and surrounding landscape features were determined to possess significance. We concur that there are no archaeological resources in the APE.

We concur with your determination that **no adverse effect on historic properties** by this project with the understanding that the parade ground, green space and trees will be preserved.

Please contact me at (808)692-8015 if there are any questions or concerns regarding this letter.

Aloha,

A handwritten signature in black ink, reading "Nancy A. McMahon".

Dear Ms. Ziff:

**SUBJECT: National Historic Preservation Act (NHPA) Section 106 Review –
Kapulena Well Development Project, EPA Grant #10-025
Kauko'i Ahupua'a, Hāmākua District, Island of Hawai'i
TMKs: (3) 4-7-002:029 & 035 (por.) and 4-7-008:019 (por.)**

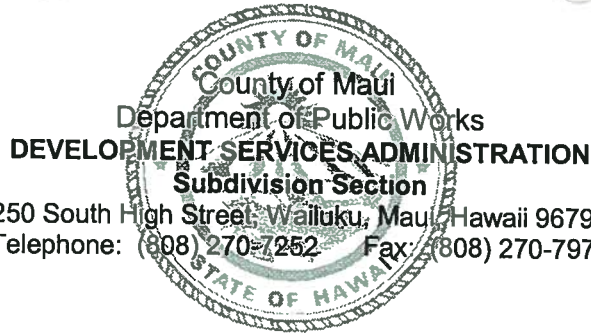

Thank you for the opportunity to review the aforementioned undertaking, which we received on April 12, 2010. This development project will entail construction of a new well; if pump tests confirm that the well's yield is adequate and suitable for use as drinking water, there will be a second phase wherein the County of Hawaii will convert the well into a production well, install a new 0.30 million gallon water tank, and connect the tank to an existing 0.05 million gallon tank that is already in service at the site.

A request for "No Effect" was previously accepted by SHPD on behalf of the County of Hawaii on January 23, 2009 under State of Hawaii Chapter 6E-8 (*Log No. 2009.0046, Doc No. 0901MD37*). We concur with your determination that this undertaking will have **no adverse affect** in the proposed A.P.E. pursuant to 36 CFR 800 (Section 106). If you have questions about this letter please contact Morgan Davis at (808) 896-0514 or via email to: morgan.e.davis@hawaii.gov.

SUBJECT: Chapter 6E- 42 Historic Preservation Review / Remodeling
Permit # BT2010-0556
Building Owner: Honorio Esteban
Location: 160 North Market Street, Wailuku
Tax Map Key: (2) 3-4-017:025

Honorio Estaban wishes to alter a building complex located at 160 North Market Street in Wailuku from residential/retail office space into a hotel/office use. The area of potential effect would be the building lot and, during construction, the street immediately adjacent.

The building was constructed in 1927 and has been extensively remodeled. Remodeling has removed its architectural integrity. The building is not eligible for the Hawaii Register of Historic Places.

Based upon the information presented, **the project will not affect historic property.**

Questions should be addressed to Ross W. Stephenson, SHPD Historian, at 692-8028 or ross.w.stephenson@hawaii.gov.

Mahalo for the opportunity to comment.

A handwritten signature in black ink, appearing to read "Paula Aiu", is written over a horizontal line.

Paula Aiu, Administrator, Hawaii Historic Preservation Division (SHPD)

5/12/10
Date

In the event that historic resources, including human skeletal remains, lava tubes, and lava blisters/bubbles are identified during construction activities, all work should cease in the immediate vicinity of the find, the find should be protected from additional disturbance, and the State Historic Preservation Division should be contacted immediately at (808) 692-8015.

SUBJECT: Chapter 6E- 42 Historic Preservation Review / Additions / Renovations / "After the Fact"
Permit # BT 2010-0740
Building Owner: Mille and Bill Kohl
Location: 984 Haiku Road
Tax Map Key: (2) 2-7-028:038

Mille and Bill Kohl have undertaken major renovations and additions to their home at 984 Haiku Road. The area of potential effect was the lot and road adjacent.

Major work included addition of concrete walkways and patios; replacing the existing wood plank floor with a concrete slab; removal of two bedrooms on ground level and replacement with pantry, stairs, and exterior storage; construction of second floor containing new bedrooms; replacing T & G exterior with stucco; addition of windows; etc.

The original building was constructed in 1923 and may have been eligible for the Hawaii Register of Historic Places. At this juncture, because of the application is "after the fact", we cannot make further comment. We will place the records in our files.

Questions should be addressed to Ross W. Stephenson, SHPD Historian, at (808) 692-8028 or ross.w.stephenson@hawaii.gov.

Sincerely,

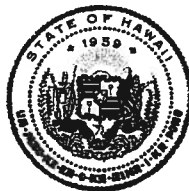

A handwritten signature in black ink, appearing to read "Pua Aiu", is written over a horizontal line.

Permit # A2010-01-1136
Building Owner: Jay Domingo
Location: 1412-C Gulick Avenue, Kalihi
Tax Map Key: (1) 1-3-015:019

Jay Domingo wishes to demolish a building he owns at 1412-C Gulick Avenue in Kalihi. The building is part of a court complex. The area of potential effect would be the house and, during work, the common driveway of the court complex.

The house was constructed in 1923 and is eligible for the Hawaii Register of Historic Places as an example of pre-World War II, one story, court housing.

The project will have effect, with agreed upon mitigation. Documentation, in the form of photographs, a lot map, house layout sketch, and completed historic resources inventory have been provided. Mitigation is complete.

Any questions should be sent to Ross W. Stephenson, SHPD Historian, at 692-8028 or ross.w.stephenson@hawaii.gov.

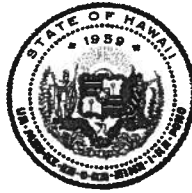

Mahalo for the opportunity to comment.

SUBJECT: Chapter 6E-8 Historic Preservation Review / Photovoltaic System
Permit # A2010-05-0193
Building Owner: Department of Education, State of Hawaii
Location: Kawananakoa Middle School Cafeteria, 49 Funchal Street, Nuuanu
Tax Map Key: (1) 2-2-009:011

The Department of Education, State of Hawaii, wishes to install a photovoltaic (PV) system on the roof of the Kawananakoa Middle School Cafeteria. Only a small portion of the south facing roof would be covered by the PV system, which would be flat with the roof surface. The area of potential effect would be the roof and, during construction, the parking area immediately makai.

Portions of the campus date from 1927. The Cafeteria was constructed as part of an extension of the campus in 1961. The age of the Cafeteria being less than 50 years, and it not being the scene of exceptional events, it is not considered eligible for placement on the Hawaii Register of Historic Places.

Based upon the information presented, **the project will not affect historic property.**

Questions should be directed to Ross W. Stephenson, SHPD Historian, at 692-8028 or ross.w.stephenson@hawaii.gov.

Mahalo for the opportunity to comment.

Permit # A2010-04-1089
Building Owner: Miriam Dunaway
Location: 3325 Kalua Road, Palolo
Tax Map Key: (1) 3-3-039:014

Miriam Dunaway wishes to demolish her existing home at 3325 Kalua Road and replace it with a two story structure. The area of potential effect would be the lot and, during work, the street immediately adjacent.

Municipal records show that the present structure was erected in 1949. The building is eligible for the Hawaii Register of Historic Places as an architectural example of a small, single wall, post-war tract home.

The project will have effect, with agreed upon mitigation. As mitigation, the owners have provided at our request interior and exterior photographs, lot plan, house layout sketch, and a completed historic resources inventory.

Questions should be addressed to Ross W. Stephenson, SHPD Historian, at 692-8028 or ross.w.stephenson@hawaii.gov.

Mahalo for the opportunity to comment.

Building Owner: Mary Domingo
Location: 947 Pauahi Place
Tax Map Key: (2) 3-9-023:039

Mary Domingo has undertaken major changes to her home on Pauahi Place in Kihei. The area of potential effect was the lot and street immediately adjacent.

Included in the work was conversion of an existing garage into a new studio and hallway; conversion of an existing patio into a new family room; and construction of a new rear covered lanai. The project was done without a permit and so the paperwork is "after the fact".

The building was constructed in 1944 and may have been eligible for the Hawaii Register of Historic Places. At this juncture, because of the application is "after the fact", we cannot make further comment. We will place the records in our files.

Any questions should be addressed to Ross W. Stephenson, SHPD Historian, at (808) 692-8028 or ross.w.stephenson@hawaii.gov.

Permit # A2010-04-0756
Building Owner: Jose and Sally Leonida
Location: 45-45 Lilipuna Road, Kaneohe
Tax Map Key: (1) 4-5-001:061

The Jose Leonida family wishes to demolish their existing residence at 45-45 Lilipuna Road in Kaneohe. The area of potential effect would be the lot and, during work, the street immediately adjacent.

The building was constructed in 1958 and has been remodeled since. The house is not eligible for the Hawaii Register of Historic Places because it has lost architectural integrity due to those renovations. It now suffers from water damage due to a leaking roof.

As documentation, the owners have provided photographs, a completed historic resources inventory form, and a sketch map of the house.

Based upon the above information, **the project will not affect historic property.**

Questions should be addressed to Ross W. Stephenson, SHPD Historian, at 692-8028 or ross.w.stephenson@hawaii.gov.

Archaeology and Historic Preservation Manager

Subject: **Chapter 6E-8 Historic Preservation Review— DEA Waikiki Beach Maintenance
Waikiki Ahupua'a, O'ahu, Hawai'i
TMK: (1) various**

We determine that **no historic properties will be affected** by this project because:

- ☐ Intensive cultivation has altered the land
- ☐ Residential development/urbanization has altered the land
- ☐ Previous grubbing/grading has altered the land
- ☐ An accepted archaeological inventory survey (AIS) found no historic properties
- ☐ SHPD previously reviewed this project and mitigation has been completed
- ☒ Other: *This excavation work will happen with this project that would affect subsurface cultural deposits.*

In the event that historic resources, including human skeletal remains, are identified during the construction activities, all work needs to cease in the immediate vicinity of the find, the find needs to be protected from additional disturbance and please contact the State Historic Preservation Division at (808) 692-8015.

2010 MAY -5 P 1:30

We are submitting on behalf of the City and County of Honolulu one set of the pre-final plans for the subject project for your review and approval.

The project is a City funded project by the Department of Design and Construction to improve drainage in four areas on Oahu. The City project contract is Gary Kam, Ph. 768-8819.

Please contact us if you have any questions.

The project is scheduled for bidding in May and your expeditious review will be greatly appreciated.

Kenneth C.W. Kwock

To: Kenneth C.W. Kwock, P.E.
Principal Engineer

"No historic properties affected"

In the unlikely event that historic sites, including human burials, are uncovered during routine construction activities, all work in the vicinity must stop and the State Historic Preservation Division must be contacted at 692-8015.

Subject: §6E-8, HRS Compliance-Request for Determination and Concurrence to
Proceed, Rockfall Mitigation project, Kalalau, Napali Coast State
Wilderness Park, Napali District, Kaua'i
TMK: (4) 4-5-009:1001, 1002

RECEIVED
HISTORIC PRES. DIV.
DEPT. OF LAND &
NATURAL RESOURCES
2010 MAY -6 PM 3:31

In the interest of public safety, The Hawaii Division of State Parks is seeking to conduct a rockfall mitigation project in heavily-used areas of Kalalau, within Napali Coast State Wilderness Park, Kaua'i. Kalalau is accessed by dozens of visitors daily, who are allowed to camp for up to 5 nights at a time. Two areas, which are among the most popular destinations within Kalalau, will be subject to the mitigation work. These include the area above and adjacent to Ho'ole'a waterfall, and the sheer cliffs overhanging the western end of Kalalau Beach above a large sea cave (Figure 1, Photo 1).

The work will consist of manual removal of loose rocks and blocks that are deemed to pose an imminent threat of dislodging from the cliff. Rocks and debris will be knocked loose using crowbars and 'o'o. Larger blocks may require the use of compressed air to facilitate their removal. All loosened material will fall to the base of the cliffs, where it will be gathered and deposited in a designated receiving area utilizing helicopter slingloads. There are no archaeological sites in the fall zone or the receiving area, which is located *mauka* of the existing composting toilets and parks cabin (see Figure 2). We anticipate the project to occur in September-October 2010.

Your office has previously determined that no historic properties will be affected by this project through a Section 106 review of the U.S. Army Corps of Engineers permit

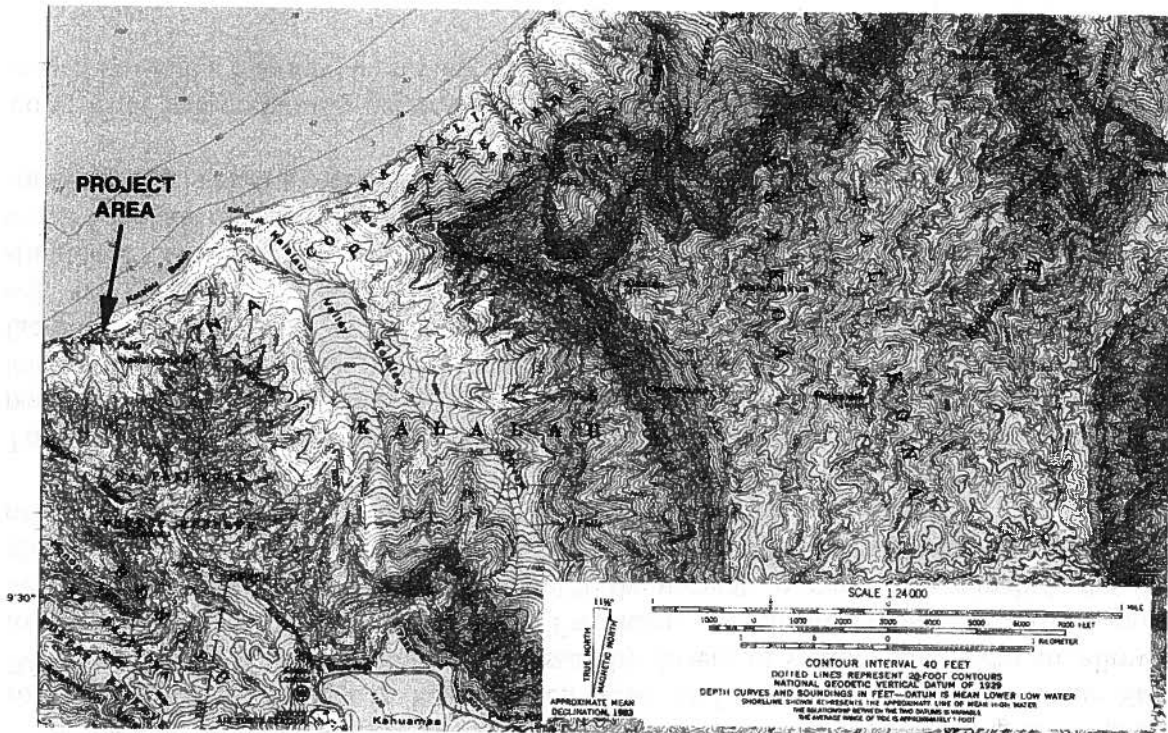

FIGURE 1: Project Location (USGS, Haena quadrangle 7.5-minute series).

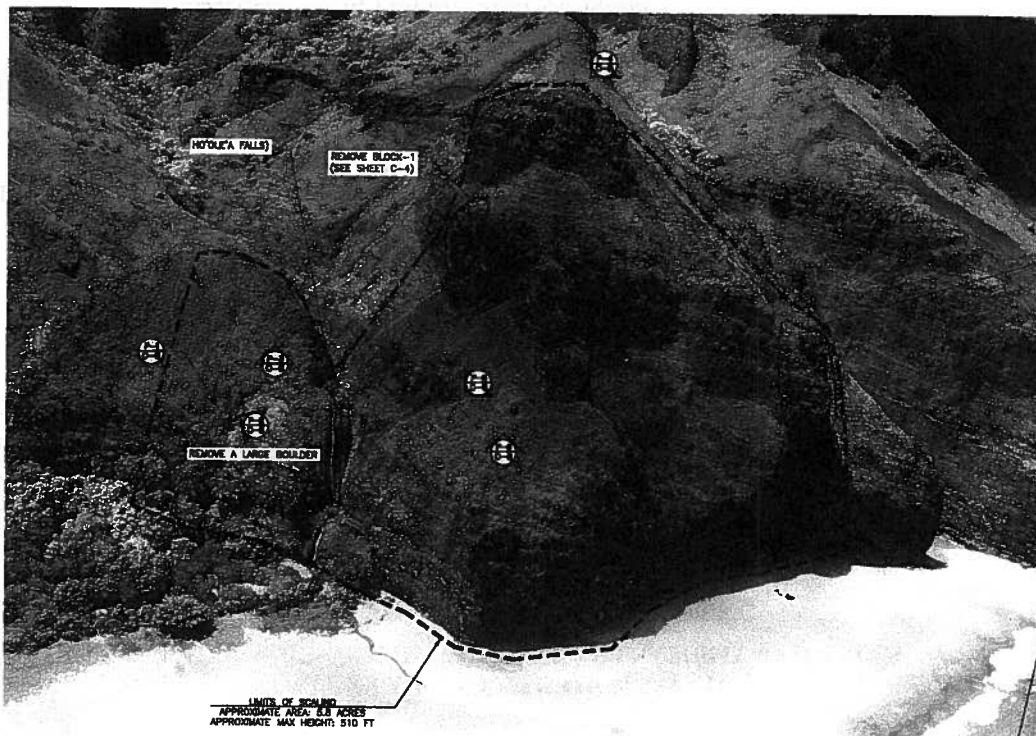

PHOTO 1: Project location indicating cliff areas to be scaled (outlined with dashed line).
View to South.

request (File no. POH-2008-00219) for the rockfall mitigation (McMahon letter to G.P. Young 8/25/09).

We are requesting a similar §6E determination of "no historic properties affected" to comply with State of Hawaii procedures for review of governmental projects (§13-275 HAR).

Determination of Effect

Archaeological survey and detailed mapping of the project area have been previously completed (Bennett 1931, Tomonari-Tuggle 1989, Yent 1981, Carpenter 1996). A site inspection was also conducted by Staff archaeologist Alan Carpenter in October 2009. The earliest survey by Bennett in 1929 found no sites in the vicinity of the proposed rockfall project. Later survey by Tomonari-Tuggle identified a single site, State site #50-30-01-7083 (originally recorded as site KAL-3), in the vicinity of the scaling project (Figure 2). This site, which has been heavily impacted by decades of camping, was described as follows:

This site is located on Kalalau Beach, immediately E. of Kolea waterfall. It is on a high (10 m), wave-cut, talus deposited coastal flat that is presently part of the main campground area. The site is roughly 40 by 40 m.

The features in this site are in extremely poor condition and have been modified a great deal by campers. There are three retaining walls running perpendicular and adjacent to the seaward edge of the flat (Fig. 41); they are only 25 to 30 cm high and appear to have been recently embellished or reconstructed. A profile visible in a small gully on the E. side of the site suggests cultural occupation in the form of a buried platform fill...The terrain of this site is irregular due to continuing talus fall and erosion by small ephemeral streams. A large (15m by 15m) pile of mixed pebbles to boulders at the E end of the site suggests a remnant platform, but angular to subangular talus material is common to this area (Tomonori-Tuggle 1989:83).

The proposed rock scaling work will not affect this site, which is separated from the rockfall zone by a deep (10 m) gully adjacent to the cliff face. Most of the scaled debris will land in this gully, and on the seasonally deposited sand beach fronting the cliff. This sand beach disappears each winter, precluding the possibility of cultural remains within the beach deposits. The cliff itself will be subjected to the greatest impacts. The project will alter the character of the steep cliff face and talus slopes, and cause temporary disturbance to vegetation and the beach below. The areas to be scaled have been visually inspected from below as well as via helicopter flyovers. There are no known lava tubes or constructed features within the scaling area, much of which is composed of consolidated soil and embedded rock rather than solid basalt (see Photo 1).

The receiving area (where scaled debris will be redeposited) is located in an area devoid of known sites, where talus rockfall is naturally occurring and which has further been degraded, as it includes the area where composted materials from the composting toilets has been deposited for years (Figure 2).

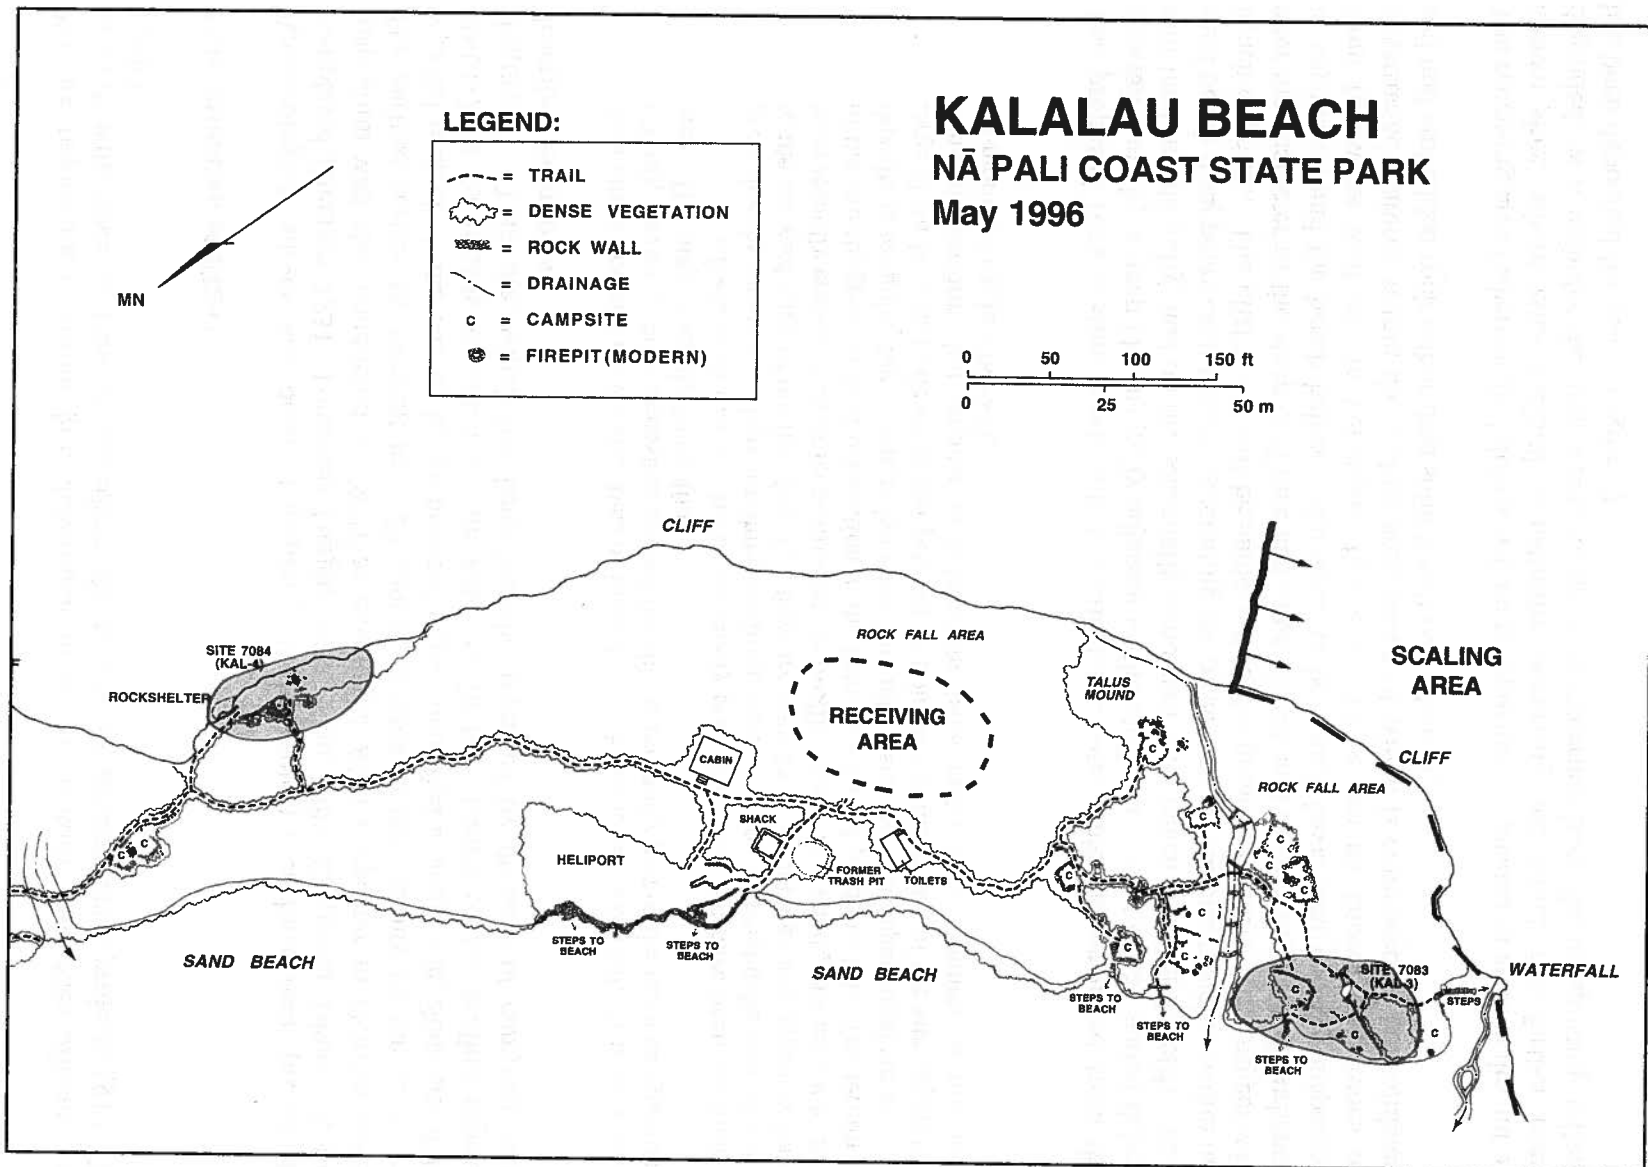

FIGURE 2: Kalalau Beach Archaeological Sites in Relation to Project Aspects.

Two public meetings (in Hanalei and Kekaha) were held on Kaua'i to discuss the project with the community. No individuals with specific knowledge of the project area came forth with information about any additional sites at either of these meetings.

Should any of the rock scaling expose previously unidentified historic properties, all work shall cease in that area and the provisions of §13-275-12 and §13-280 will be followed.

To fulfill the requirements of §6E-8, HRS, and chapter 13-275, HAR, we are requesting a determination of "no historic properties affected" and concurrence to proceed with this public safety project within Napali Coast State Wilderness Park if you agree that previous survey has adequately determined the absence of sites in the area of project effect. If you have any questions about our proposed determination or the information upon which it was based, please contact State Parks archaeologist Alan Carpenter at (808) 587-0286 or by email, alan.b.carpenter@hawaii.gov.

Concurrence

If you agree with our proposed "no historic properties affected" determination for the rockfall mitigation within Napali Coast State Wilderness Park; and concur that State Parks consultant may proceed with the proposed project in accordance with HRS §6E-8, we ask that you indicate your concurrence as provided below. We have also provided options for you not to concur or to indicate your concurrence on condition that we make specified changes to our proposed determination.

- ☒ Concurrence to proceed is given:
- ☐ Concurrence to proceed is given on condition that revisions specified in the attached document are made:
- ☐ Concurrence to proceed is not given. Correspondence documenting concerns will be forthcoming:

Hawaii State Veteran's Cemetery Phase – Soil Storage and Miscellaneous
Improvements DAGS JOB NO 12-14-7362
Kaneohe, Koolau-poko, O'ahu
TMK (1) 4-5-033:002

Thank you for the opportunity to review the above referenced project, which we received on April 6, 2010. We apologize for our delayed response.

A review of our files shows that an Archaeological Inventory Survey was completed for this property (90 acres) in 1989 by Cultural Surveys Hawaii. No historic sites were found. We were able to find the 1989 report, but were not able to find our letter of determination. Furthermore, it appears that the project in question will take place on land that has already been disturbed by earlier grubbing, grading and construction.

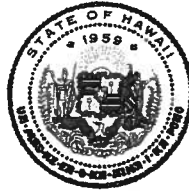

SHPD finds that "no historic properties" will be affected by this project.

Please call Pua Aiu at 692-8040 or Nancy McMahon at 692-8021 if you have further questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Nancy McMahon".

County of Maui
250 South High Street
Wailuku, HI 96793

SUBJECT: Chapter 6E- 42 Historic Preservation Review / Reroofing
Permit # BT2010-0656
Building Owner: Josh Stone
Location: 1188 Makawao Avenue, Makawao
Tax Map Key: (2) 2-4-007:069

Mr. Josh Stone needs to reroof his commercial building located at 1188 Makawao Avenue. The area of potential effect would be the lot and, during work, the street immediately adjacent.

County of Maui online records show the building constructed in 1929. The building has undergone a series of small scale internal improvements and is eligible for the Hawaii Register of Historic Places as architecture representative of pre-World War II rural commercial construction in Hawaii.

The project would reroof the existing structure using similar materials to those existing. On this basis, **the project will not affect historic properties.**

Questions should be addressed to Ross W. Stephenson, SHPD Historian, at 692-8028 or ross.w.stephenson@hawaii.gov.

Mahalo for the opportunity to comment.

Pua Aia, Administrator, Hawaii Historic Preservation Division (SHPD)

5/11/2010
Date

In the event that historic resources, including human skeletal remains, lava tubes, and lava blisters/bubbles are identified during construction activities, all work should cease in the immediate vicinity of the find, the find should be protected from additional disturbance, and the State Historic Preservation Division should be contacted immediately at (808) 692-8015.

SUBJECT: Chapter 6E-42 Historic Preservation Review / Addition
Permit # BT2010/0593
Building Owner: Willie Nelson
Location: 463 Laulea Place, Paia
Tax Map Key: (2) 3-8-002:007

Willie Nelson wishes to make changes to the left side of his home. He would extend his present garage; remodel the second floor over the existing garage; and add to the second floor area. Included on the upper level would be a new recreation room, office, and two bedrooms. The area of potential effect would be contained within the parcel.

The Nelson residence was originally constructed in 1935. However, the house was remodeled in 2002 to accommodate a new second story wing on the right side. The alteration means that the house is not eligible for the Hawaii Register of Historic Places.

Based upon the information presented, **the project does not affect historic properties.**

Any questions should be sent to Ross W. Stephenson, SHPD Historian, at (808) 692-8028 or ross.w.stephenson@hawaii.gov.
